- 3. Corrupt or Fraudulent Practices**      3.1 It is the Government’s policy to require that Procuring Entities (including beneficiaries of the funds), as well as bidders, suppliers, and contractors and their subcontractors under Government-financed contracts, observe the highest standard of ethics during the procurement and execution of such contracts.<sup>1</sup> In pursuance of this policy, the Government:

**defines, for the purposes of this provision, the terms set forth below as follows:**

- (i) “corrupt practice”<sup>2</sup> is the offering, giving, receiving or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party;

---

<sup>1</sup> In this context, any action taken by a bidder, supplier, contractor, or a sub-contractor to influence the procurement process or contract execution for undue advantage is improper.

<sup>2</sup> For the purpose of these SBDs, “another party” refers to a public official acting in relation to the procurement process or contract execution]. In this context, “public official” includes employees of other organizations taking or reviewing procurement decisions.

<sup>3</sup> For the purpose of these SBDs, “party” refers to a public official; the terms “benefit” and “obligation” relate to the procurement process or contract execution; and the “act or omission” is intended to influence the procurement process or contract execution.

-

- (c) will sanction a firm or individual, including declaring them ineligible, either indefinitely or for a stated period of time, to be awarded a Government-financed contract if it at any time determines that they have, directly or through an agent, engaged in corrupt, fraudulent, collusive, coercive or obstructive practices in competing for, or in executing, a Government-financed contract. ### **E. Bid Opening and Evaluation**

#### **24. Bid Opening**

No bid shall be rejected at bid opening except for the late bids pursuant to ITB Clause 22; Bids, and modifications, sent pursuant to ITB Clause 23 that are not opened and read out at bid opening will not be considered for further evaluation regardless of the circumstances. Late and withdrawn bids will be returned unopened to the bidders.
- 24.4 The Employer will prepare minutes of the Bid opening, including the information disclosed to those present in accordance with ITB Sub-Clause 24.3.

#### **25. Process to Be Confidential**

- 25.1 Information relating to the examination, clarification, evaluation, and comparison of bids and recommendations for the award of a contract shall not be disclosed to bidders or any other persons not officially concerned with such process until the award to the successful Bidder is notified of the award. Any effort by a Bidder to influence the Employer's processing of bids or award decisions may result in the rejection of his Bid.
- 25.2 If, after notification of award, a bidder wishes to ascertain the grounds on which its bid was not selected, it should address its request to the Employer, who will provide written explanation.

Any request for explanation from one bidder should relate only to its own bid; information about the bid of competitors will not be addressed.

- 26. Clarification of Bids**
- 26.1 To assist in the examination, evaluation, and comparison of bids, the Employer may, at the Employer's discretion, ask any Bidder for clarification of the Bidder's Bid, including breakdowns of the prices in the Activity Schedule, and other information that the Employer may require. The request for clarification and the response shall be in writing or by cable, telex, or facsimile, but no change in the price or substance of the Bid shall be sought, offered, or permitted except as required to confirm the correction of arithmetic errors discovered by the Employer in the evaluation of the bids in accordance with ITB Clause 28.
- 26.2 Subject to ITB Sub-Clause 26.1, no Bidder shall contact the Employer on any matter relating to its bid from the time of the bid opening to the time the contract is awarded. If the Bidder wishes to bring additional information to the notice of the Employer, he should do so in writing.

- 27. Examination of Bids and Determination of Responsiveness**
- 27.1 Prior to the detailed evaluation of bids, the Employer will determine whether each Bid (a) meets the eligibility criteria defined in ITB Clause 4; (b) has been properly signed; (c) is accompanied by the required securities; and (d) is substantially responsive to the requirements of the bidding documents.

- 27.3 If a Bid is not substantially responsive, it will be rejected by the Employer, and may not subsequently be made responsive by correction or withdrawal of the nonconforming deviation or reservation.

- 28. Correction of Errors**
- 28.1 Bids determined to be substantially responsive will be checked by the Employer for any arithmetic errors. Arithmetical errors will be rectified by the Employer on the following basis: if there is a discrepancy between unit prices and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail, and the total price shall be corrected; if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; if there is a discrepancy between the amounts in figures and in words, the amount in words will prevail.
- 28.2 The amount stated in the Bid will be adjusted by the Employer in accordance with the above procedure for the correction of errors and, with the concurrence of the Bidder, shall be considered as binding upon the Bidder. If the Bidder does not accept the corrected amount, the Bid will be rejected, and the Bid Security may be forfeited in accordance with ITB Sub-Clause 17.5(b).

- (c) making an appropriate adjustment for any other acceptable variations, deviations, or alternative offers submitted in accordance with ITB Clause 18; and
- (d) making appropriate adjustments to reflect discounts or other price modifications offered in accordance with ITB Sub-Clause 23.5.

30.3 The Employer reserves the right to accept or reject any variation, deviation, or alternative offer. Variations, deviations, and alternative offers and other factors, which are in excess of the requirements of the bidding documents or otherwise result in unsolicited benefits for the Employer will not be taken into account in Bid evaluation.

30.4 The estimated effect of any price adjustment conditions under Sub-Clause 7.6 of the General Conditions of Contract, during the period of implementation of the Contract, will not be taken into account in Bid evaluation.

# TERMS OF REFERENCE FOR TENDER FOR UPGRADE OF THE KENNETH KAUNDA INTERNATIONAL AIRPORT (KKIA) FUEL FARM ON BUILD OPERATE AND TRANSFER MODEL COMPLETE WITH CONNECTION WORKS TO NEW APRON'S INSTALLED FUEL HYDRANT

---

## 1. Introduction

The Zambia Airports Corporation Limited (ZACL) was established in 1989 through the amendment of Aviation Act, Chapter 444 of the Laws of Zambia and incorporated under the Companies Act 388 with the mandate to develop, maintain and manage the four designated international airports namely, Kenneth Kaunda, Simon Mwansa Kapwepwe, Harry Mwaanga Nkumbula and Mfuwe International Airports, and to provide air navigation services throughout the Zambian Airspace. The Corporation commenced operations on 11th September 1989.

The primary business activity for the Corporation is to develop, manage, and maintain a network of four (4) designated international airports, seven (07) provincial and three (03) strategic aerodromes and to provide air navigation services across the entire Zambian airspace.

## 2. Background

The Government of the Republic of Zambia (GRZ) embarked on the mission to achieve a sustainable economic and inclusive growth by 2030 which included key elements of the transport and communications sector. In this light, ZACL spearheaded the upgrade of Harry Mwaanga Nkumbula International Airport (HMNIA), and through the Ministry of Transport and Communications, the upgrade of Kenneth Kaunda International Airport (KKIA) was commenced as well as the Greenfield project comprising of various infrastructure at the new Simon Mwansa Kapwepwe International Airport (SMKIA). This was targeted at expanding capacity and improving the customer experience in consonance with these developments, the growth of non-aeronautical revenues has become a key strategic pillar for ZACL.

In line with GRZ plans to transform KKIA into a regional air transport hub, the upgrade project include: an aviation fueling facility consisting of an embedded apron hydrant system to service the new apron, which shall be connected to the existing fuel farm and its associated pipe network, for fuel supply. It is worth noting that the installation of the hydrant system and pipe work, beneath the new Apron, is being implemented by the contractor China Jiangxi Corporation for International Economic & Technical Cooperation (CJIC) under the upgrade project while the upgrade of the existing fuel farm with the associated pipe work to link the apron is the objective of these terms of reference. This implementation shall be on a Build Operate and Transfer (BOT) model.

## 3. Objectives

As part of its strategy to develop KKIA into a regional air transportation hub, ZACL intends to engage a single entity or a group of entities (the “Consortium”), coming together to Design, Develop and Manage the KKIA fuel farm to meet the aspiration of the sector. Management of the facility to includes:

- i. Handling of all aviation fuel and related products;
- ii. Quality control complete with critical procedures that require both safety and quality management from the supply through to fuel transportation;
- iii. Delivering to the airport fuel farm;
- iv. Storage of all aviation fuel and related products; and
- v. Fueling of aircraft in accordance with their requirements.

The supplier and the operator are expected to demonstrate ability to provide Aviation’s Technical Services including ability to design, construct, operate and maintain fuel-handling systems with the highest safety and operational standards and in line with international best practices.

#### **4. Scope of Services**

##### **a. The Existing Fuel Farm Profile**

##### **i. Current Aviation Fueling Facility**

KKIA is currently equipped with a fuel farm/depot for the provision of aviation fuel (Aviation Gasoline & Jet A1) which meets airline fuel requirements. This aviation fuel storage and supply facility is located on the western side of the Passenger Terminal Buildings. The facility constitutes of an administration block, fuel storage tanks, fueller parking area, firefighting facility, fueller/tanker loading bay and space for future expansion of storage tank capacity.

The proposed location of the new fuel farm is adjacent to the current aviation fuel facility to the western side of Terminal Building (labeled as ‘Available land’ in Figure 1.1) and measuring approximately 3,227.21. The land earmarked for further development in the vicinity of the existing fuel farm has been made available by ZACL.

**Figure 1.1** Airport General layout-Kenneth Kaunda International Airport general layout map showing locations of: existing and new Terminal Buildings, aircraft aprons, JET A1 fuel Depot facilities and proposed locations for the new fuel farm/Depot

## ii. **Fuel Storage for the Existing Fuel Depot at KKIA**

The current fuel facility at KKIA is operated through a Joint Venture (JV) between Total Aviation Zambia Ltd and Puma Energy Zambia Plc. The Depot comprises multi-tank fuel storages and dispensing trucks, providing a total Jet A1 storage capacity of **1,533,000** litres.

The depot is laid out in such a way that it minimizes security concerns with regards to landside (medium security) and airside (high security) segregated by a security fence.

The landside is dedicated to third party bridger receipt with its own gantry, office ablution facilities and security control. It is also accessible from the main public roadway.

All apron operations such as storage and handling of fuel, fueling vehicles and hydrant dispensers are managed from the site office facilities including all test rigs, hydrant systems, receipt pump filtration systems, firefighting, airside vehicle workshop, fueler loading gantry, defuel / test rig facility and interceptor.

## iii. **Proposed Fuel Farm Facility (Fuel Farm connected to Hydrant System)**

### 1. **Particulars of the Improvements and Upgrade of the Fuel Farm Facility**

It is proposed that the depot be upgraded without interfering with the existing operations as the gantry and the additional tank being proposed are not in the existing operational areas.

The following particulars are envisaged under the upgrade program:

- a. Propose to increase the storage capacity aggregate to a minimum of **2,000,000 litres** (Subject to feasibility review and business case);
- b. Connect pipe works through to the imbedded in-pavement Apron hydrant system to servicing 6 aircraft parking bays on the new apron from the fuel farm;
- c. Design and upgrade the fire suppression systems;
- d. Determine the requirements on fuel with respect to the existing tanks;
- e. Design and upgrade a bridger receipt and loading point; and

- f. Providing aviation fueler equipment and services to airplanes parked remote to the apron fueling hydrant system and those parked at the terminal 2 apron prior to commissioning of the fueling hydrant system.
- g. Provide hydrant equipment fueling services
- h. Ensure that access is granted to all duly licensed fuel operators seeking to supply aeroplanes on acceptable commercial terms; and
- i. The depot/site administration office needs an extensive renovation program:
  - i. Survey and repair building foundations;
  - ii. Painting of internal and external areas;
  - iii. Survey and repair roofing;
  - iv. Upgrade Ablution facilities; and
  - v. New office furniture.

The project implementation period for the proposed upgrade shall be between 12 to 18 months following the award of the tender. The operator shall be required to operationalize the new equipment together with the apron hydrant system by the end of the stipulated development timeframe.

  - iv. API 1541 Performance requirements for protective coating systems used in aviation fuel storage tanks and piping.

#### **b. Pipework**

All depot pipework is above ground up to the inlet of the buried hydrant manifold. This is to eliminate and minimize environmental impact. It also allows for periodic inspection. All pipework shall be designed and fabricated in accordance to;

- i. ASME B31.3 Chemical plant and petroleum refinery piping.

- ii. API 5L-Specification for line pipe.
- iii. API 6D-Specification for pipeline valves (Gate, Ball and Check Valves).

- 6.3.2 **If the SCC so specify**, the service provider shall be paid performance incentive compensation as set out in the Performance Incentive Compensation appendix.
- 6.4 Terms and Conditions of Payment** Payments will be made to the Service Provider according to the payment schedule **stated in the SCC**. **Unless otherwise stated in the SCC**, the advance payment (Advance for Mobilization, Materials and Supplies) shall be made against the provision by the Service Provider of a bank guarantee for the same amount, and shall be valid for the period **stated in the SCC**. If so provided, the amounts certified in each payment certificate, after deducting for Advance Payment, shall be adjusted by applying the respective price adjustment factor to the payment amounts due in each currency. A separate formula of the type indicated below applies to each Contract currency:

- Where:
- $P_c$  is the adjustment factor for the portion of the Contract Price payable in a specific currency “c”.
- $A_c$ ,  $B_c$  and  $C_c$  are coefficients specified in the SCC, representing:  $A_c$  the nonadjustable portion;  $B_c$  the adjustable portion relative to labor costs and  $C_c$  the adjustable portion for other inputs, of the Contract Price payable in that specific currency “c”; and

Lmc is the index prevailing at the first day of the month of the corresponding invoice date and Loc is the index prevailing 28 days before Bid opening for labor; both in the specific currency “c”.

Imc is the index prevailing at the first day of the month of the corresponding invoice date and Ioc is the index prevailing 28 days before Bid opening for other inputs payable; both in the specific currency “c”.

If a price adjustment factor is applied to payments made in a currency other than the currency of the source of the index for a particular indexed input, a correction factor  $Z_o/Z_n$  will be applied to the respective component factor of pn for the formula of the relevant currency.  $Z_o$  is the number of units of currency of the country of the index, equivalent to one unit of the currency payment on the date of the base index, and  $Z_n$  is the corresponding number of such currency units on the date of the current index.

6.6.2 If the value of the index is changed after it has been used in a calculation, the calculation shall be corrected and an adjustment made in the next payment certificate. The index value shall be deemed to take account of all changes in cost due to fluctuations in costs.

## 6.7 Dayworks

6.7.1 If applicable, the Daywork rates in the Service Provider’s Bid shall be used for small additional amounts of Services only when the Employer has given written instructions in advance for additional services to be paid in that way.

6.7.2 All work to be paid for as Dayworks shall be recorded by the Service Provider on forms approved by the Employer. Each completed form shall be verified and signed by the Employer representative as indicated in Sub-Clause 1.6 within two days of the Services being performed.

6.7.3 The Service Provider shall be paid for Dayworks subject to obtaining signed Dayworks forms as indicated in Sub-Clause 6.7.2

### 7.1 Identifying Defects

The principle and modalities of Inspection of the Services by the Employer shall be as **indicated in the SCC**. The Employer shall check the Service Provider’s performance and notify him of any Defects that are found. Such checking shall not affect the Service Provider’s responsibilities. In case of disagreement between the Employer and the Service Provider, within 30 days, the Adjudicator shall be designated by the Appointing Authority **designated in the SCC** at the request of either party, within 14 days of receipt of such request.
